Why Choose Us

Who We Are

We are a group of highly qualified professionals delivering valuable industrial and engineering solutions tailored to the needs of our clients. At Stone for Supply and Services, we specialize in the supply of premium raw materials, steel products, and customized services that meet the highest standards of precision and quality.

Each team member acts with expertise and commitment, ensuring that we respond effectively to the evolving challenges of construction, energy, and manufacturing sectors. Through collaboration, advanced technology, and a focus on continuous improvement, we create added value and long-term impact for our clients.

By fostering open communication and maintaining transparency in every interaction, we aim to be recognized as a trusted and strategic partner for sustainable industrial success.

Vision

To be an integral part of every successful industry by leading in the delivery of high-performance, integrated solutions. We strive to redefine excellence in industrial supply and engineering, empowering businesses to thrive through innovation and sustainable growth.

Mission

To support our clients with a continuous and seamless flow of high-quality materials and services, while delivering optimal value through precision, innovation, and operational excellence.

Our Values

At Stone for Supply and Services, our core values are the foundation of everything we do. These principles guide our actions, shape our culture, and influence how we engage with our clients, partners, and communities.

1- Quality First

We deliver every product and service with precision and attention to detail, ensuring exceptional results that exceed expectations.

2- Innovation and Growth

We embrace continuous improvement and industry advancements to offer cutting-edge, high-impact solutions.

3- Customer-Centric Approach

Our clients come first. We provide personalized, efficient support to build long-term, successful partnerships.

4- Integrity & Transparency

We operate with honesty, accountability, and clear communication to foster trust and respect in every relationship.

5- Sustainability & Responsibility

We implement eco-conscious practices and responsible resource management to support a greener future.

Scope of Work

At Stone for Supply and Services, we are committed to delivering comprehensive, high-quality solutions that meet the specific needs of each of our clients. Our Scope of Work outlines the full range of services and products we provide across various industries. From the supply of raw materials to precision engineering and digital transformation, we offer end-to-end solutions that enhance operational efficiency and drive success. Each service is designed with the goal of delivering reliability, innovation, and excellence, ensuring that our clients receive tailored solutions that support their long-term objectives.

Raw Material Supply

At Stone for Supply and Services, we provide a comprehensive range of premium raw materials sourced from trusted suppliers, tailored to meet the diverse needs of industries such as construction, energy, manufacturing, and more. Our raw material supply ensures the foundation for high-performing operations, providing our clients with essential materials of the highest quality. Our offerings include:

- Slag
- Iron Oxide
- Gypsum
- Basalt
- Quartz
- Calcium Carbonate
- Limestone
- Clay

We go beyond simply offering these materials; we specialize in customizing our supply to meet precise specifications and quality standards required for specific industrial applications.

Our team collaborates closely with clients to ensure the materials align with operational requirements, contributing to efficiency and overall project success.

Steel Supply

The background of the entire page is a high-contrast, blue-tinted photograph of several large, heavy-duty steel I-beams stacked on top of each other. The beams are arranged in a way that creates a sense of depth and industrial scale. The lighting highlights the metallic texture and the structural details of the beams.

Our steel supply services include a variety of high-performance steel products designed for robust industrial use. We specialize in providing the following steel types:

- Stainless Steel (Multiple Grades)
- Anti-Wear Materials and Chromium Carbide
- Corten and Grade 52 Steel

These steel products are essential for industries that require durable, long-lasting materials, including construction, energy, and heavy machinery sectors. We source the highest-quality steel to ensure that our clients receive reliable and resilient products for their operations.

Welding Solutions

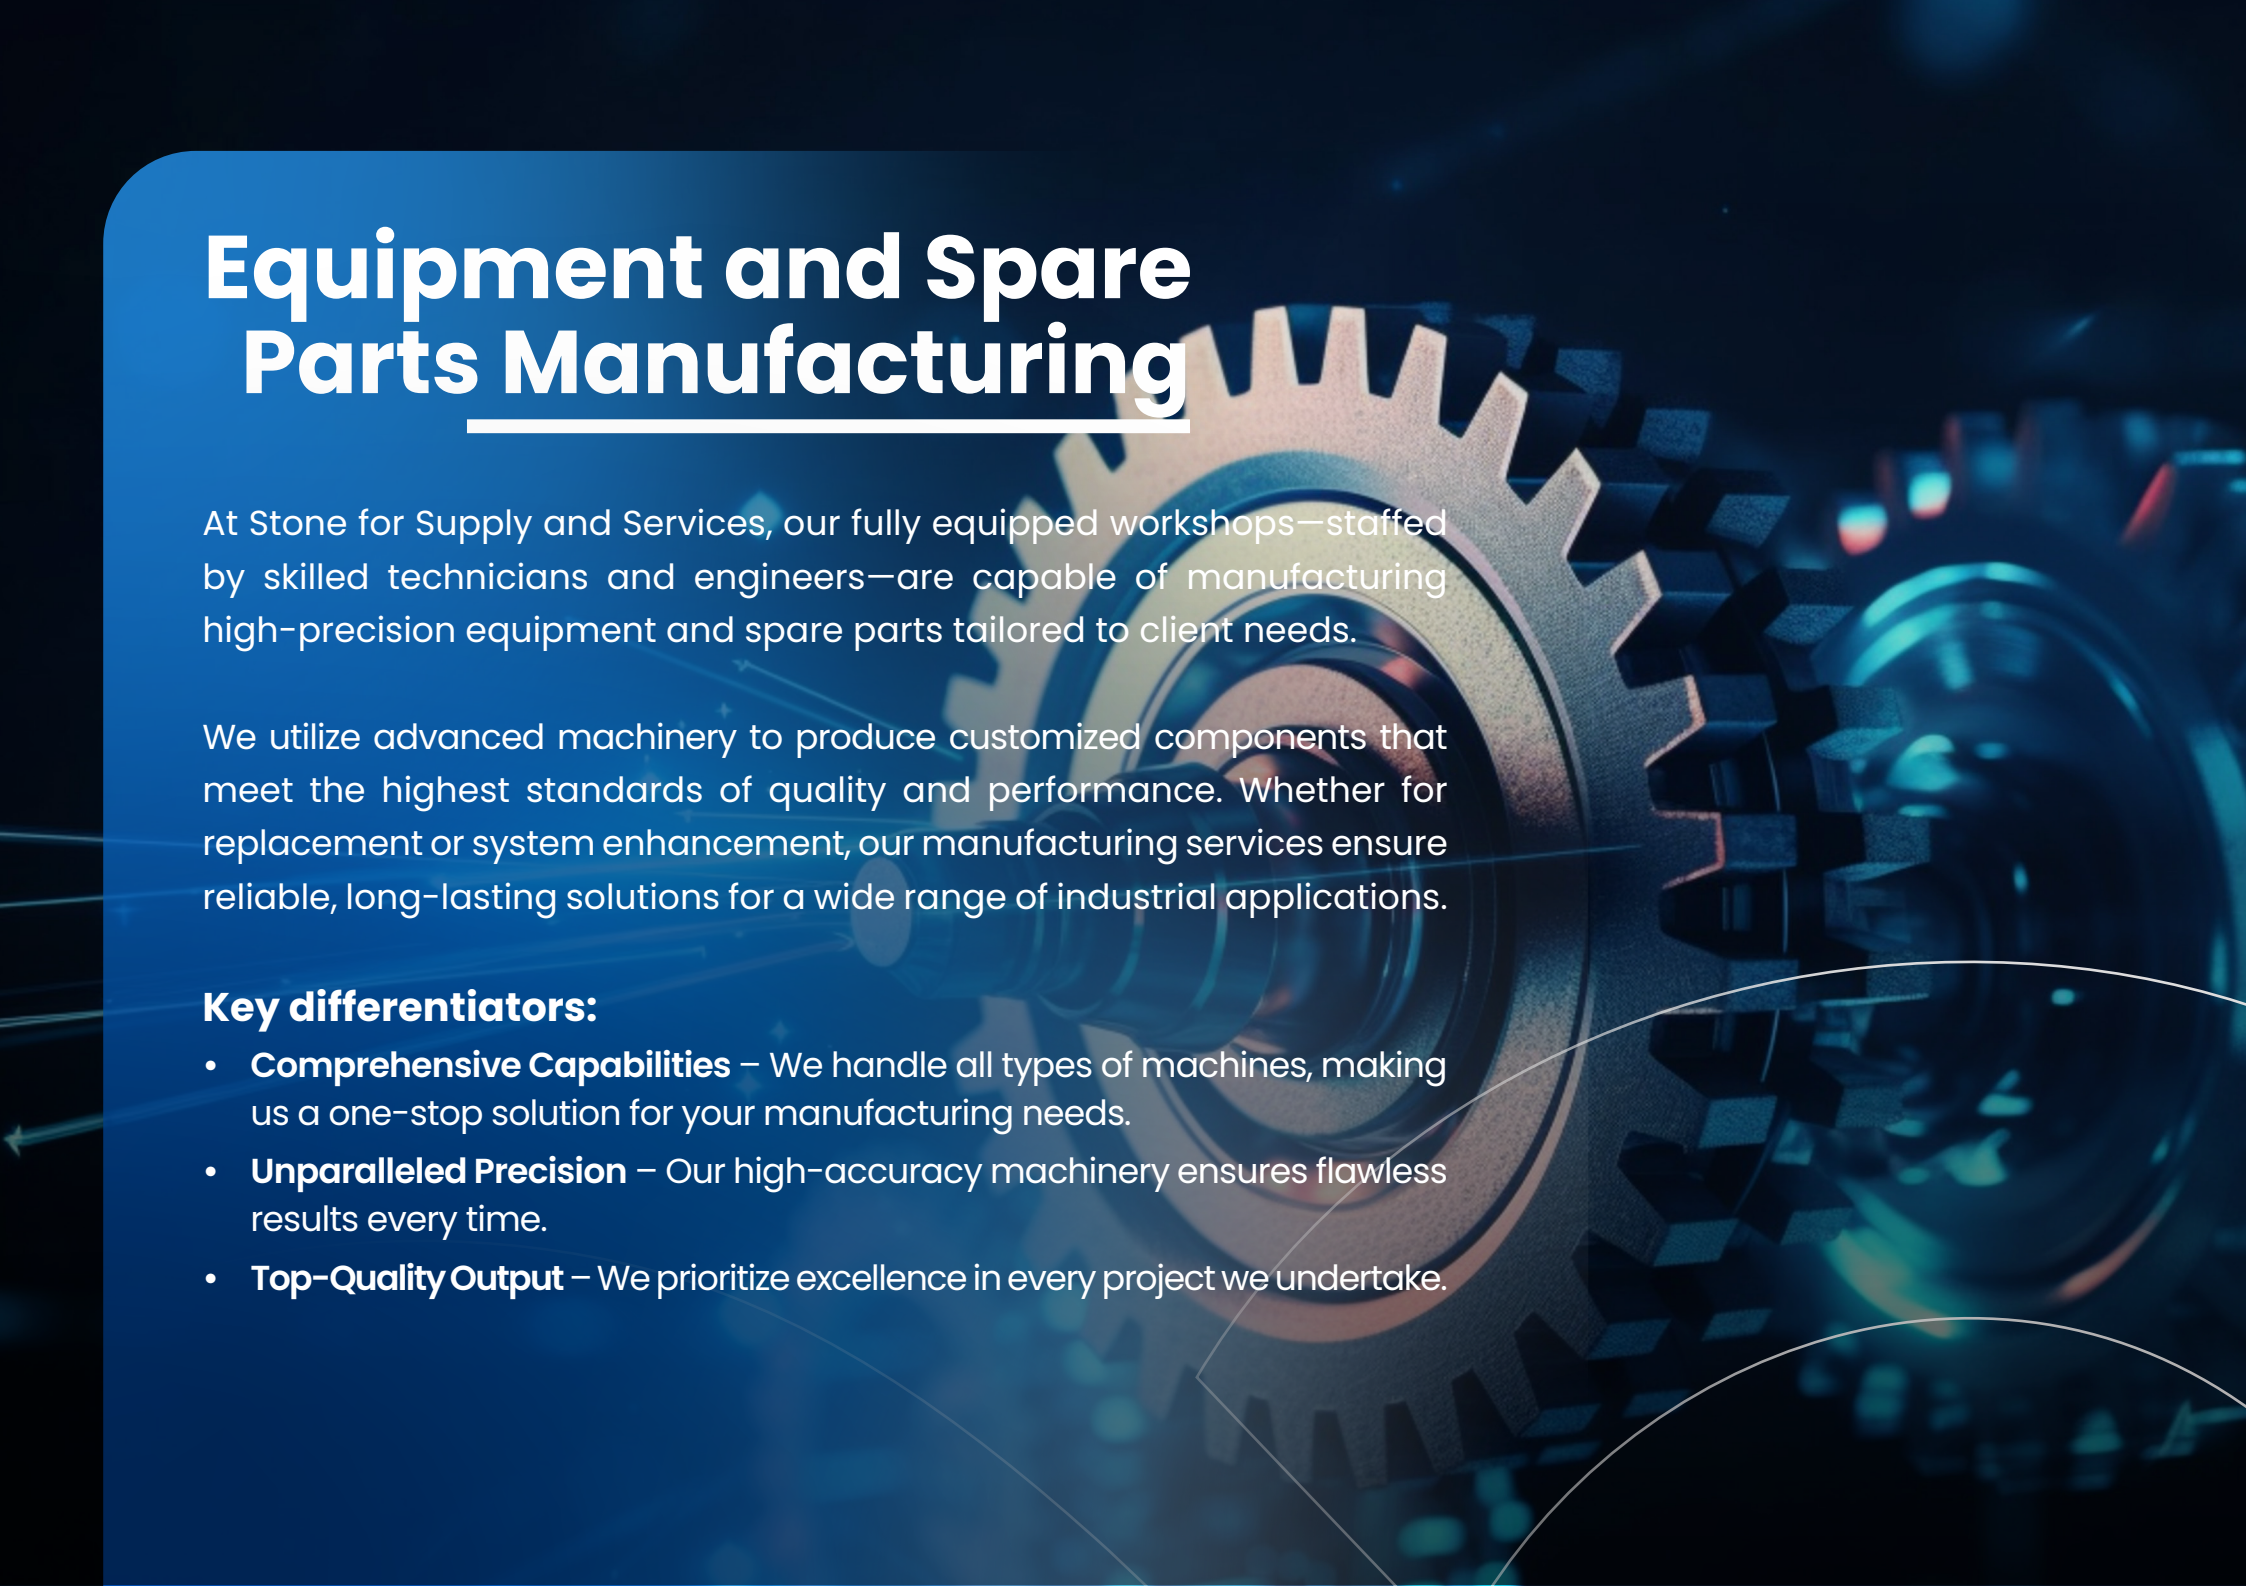

Stone for Supply and Services offers specialized welding solutions to enhance machinery durability and operational reliability. Our offerings include:

- Stainless Steel Welding Electrodes
- Special Alloy Welding Electrodes and Wires
- Hardfacing Services
- Crack and Corrosion Repairs

Our welding solutions help maintain the integrity of critical equipment, ensuring they operate efficiently and remain functional over time. Whether for repairs or upgrades, we provide high-quality solutions that meet the highest industry standards.

Equipment and Spare Parts Manufacturing

At Stone for Supply and Services, our fully equipped workshops—staffed by skilled technicians and engineers—are capable of manufacturing high-precision equipment and spare parts tailored to client needs.

We utilize advanced machinery to produce customized components that meet the highest standards of quality and performance. Whether for replacement or system enhancement, our manufacturing services ensure reliable, long-lasting solutions for a wide range of industrial applications.

Key differentiators:

- **Comprehensive Capabilities** – We handle all types of machines, making us a one-stop solution for your manufacturing needs.
- **Unparalleled Precision** – Our high-accuracy machinery ensures flawless results every time.
- **Top-Quality Output** – We prioritize excellence in every project we undertake.

Support Services

we offer a full suite of support services tailored to strengthen and sustain industrial operations across sectors. Our goal is to enhance performance, reduce downtime, and ensure long-term operational continuity.

Our support services include:

- Installations and modifications
- Operating and Maintenance agreements
- Maintenance, overhauls, and rehabilitation
- Skilled and non-skilled labor
- Crane rentals
- Technical consultations and technical studies
- Training services

These services are delivered with a focus on both preventive and corrective strategies, ensuring seamless execution, cost-effectiveness, and reliability across every project we support.

Scrap Purchasing

We actively purchase scrap materials from factories, construction sites, and other industrial sectors. Our scrap purchasing services help businesses manage waste, recycle valuable materials, and reduce operational costs. We focus on sustainable practices, ensuring that scrap materials are effectively repurposed and contribute to a circular economy.

Software and Digital Transformation

As part of our commitment to innovation, we provide cutting-edge software and digital solutions designed to streamline operations, optimize business processes, and enhance decision-making. Our services include:

Key differentiators:

- ERP & Business Application Implementation
- Big Data & Machine Learning
- Specialized Stack & Mobile Development
- Cloud Transformation

We help businesses adapt to the digital age by upgrading existing systems, implementing new software, and providing seamless integration with modern technologies. Our solutions are designed to meet the specific needs of each client, empowering them to achieve greater efficiency and insight

Alternative Fuel Production and Supply

At Stone for Supply and Services, we support sustainability and energy efficiency by producing and supplying alternative fuels that reduce environmental impact and optimize resource utilization.

Our services include:

- **Producing RDF (Refuse-Derived Fuel) from solid waste** – A cleaner, cost-effective fuel source used in cement plants, boilers, and industrial kilns, derived from non-recyclable, high-calorific waste.
- **Producing Biomass from agricultural waste** – A renewable energy source created by processing crop residues and organic matter, ideal for powering industrial operations and reducing reliance on fossil fuels.

By transforming waste into usable energy sources, we help industries adopt cleaner alternatives, reduce landfill use, and contribute to circular economy goals. Our team ensures compliance with environmental standards and offers tailored solutions for clients seeking responsible and cost-efficient fuel options.

Why Choose Us

1. Industry Expertise We offer tailored solutions across industries, ensuring our services meet the unique needs of each client.
2. Customized Solutions From raw materials to precision engineering, we provide flexible solutions designed to fit your operations.
3. Comprehensive Capabilities We manage all types of machines, offering a one-stop solution for all your industrial needs, from raw material supply to equipment manufacturing.
4. Unparalleled Precision Our high-accuracy machinery guarantees flawless results, ensuring that every project is executed with exceptional precision.
5. Top-Quality Output We are committed to delivering excellence in every aspect of our work, from sourcing raw materials to completing final products, ensuring the highest standards in all deliverables.

Thank you!

We appreciate your interest in Stone for Supply and Services. Your trust in our capabilities is crucial to our success. We are committed to delivering high-quality, customized solutions to meet your business needs. We look forward to the opportunity to collaborate and help drive your success.
